

On-Shore Security. Near-Shore Value.

Every process
has its place;
is yours in
North Dakota?

World Industry Leaders Value North Dakota.

Microsoft, Bobcat Company, Alien Technology, ING, Goodrich, American Express, Northwest Airlines, Unisys and Aetna all have growing operations in North Dakota.

Why Do You Need an On-Shore Location?

Every business process has its place, and some processes will always be a better fit on-shore – for example, those with specific legal requirements (like domestic content), security issues or high need for proximity to market.

Why Should You Choose North Dakota?

Smart companies choose North Dakota to capitalize on our expertise, including: RFID, plant-made pharmaceuticals, nanocomposite-based biomaterials, high-performance computing, UAV technology and next-generation biotechnology...for starters. Then there's real access to political officials in a stable, pro-business government, all in a central time zone. Business is just easier and more profitable in North Dakota.

Leverage these advanced capabilities in North Dakota:

- The only academic facility in the world to automate the development of new polymers and formulate polymer products using robotics and high-speed measurements
- Five spacious Class 10,000 and Class 100 cleanrooms
- \$83-million aerospace complex featuring NASA's flying laboratory
- The nation's only Center for Excellence in Hydrogen Technology
